

Ben Curran

Ben is a cyber security and modern workplace professional with knowledge and experience in solution & security architecture, cyber risk, compliance and assurance.

Ben has experience in creating and owning solution & security related roadmaps, as well as developing and managing documentation for organisations in the private and public sectors.

Ben's approach to delivery ensures alignment and compliance with the highest security standards, frameworks, regulation and legislation supporting systems, including Critical National Infrastructure.

Ben is known for his leadership skills, building and guiding high-performance teams through complex challenges. With a hands-on, proactive approach, Ben is dedicated to resolving issues and navigating evolving digital landscapes.

Outside of work, Ben enjoys mountain biking at trail centres across the UK with his family. Ben also has a keen interest in cars and frequently participates in supercar events across the country.
